# About Classroom 1.0 for Mac beta 1

Classroom, originally released on iOS for iPad, is now available on macOS with the same great feature set.

Classroom turns your Mac into a powerful teaching assistant, helping a teacher guide students using iPad devices through a lesson, see their progress, and keep them on track. With Classroom, you can easily launch the same app on every student iPad at the same time or launch a different app for each group of students. Classroom helps teachers focus on teaching so students can focus on learning.

## Installation and Setup

- Classroom on macOS: macOS version 10.14 Beta release 1 or later
- Student iPad: Update to latest beta build of iOS version 12.0

## Bug Reporting

For issues not mentioned in [Notes and Known Issues](#), please file bugs through the Apple Developer website <https://developer.apple.com/bug-reporting/>.

When filing a bug, please make sure to include “Classroom 1.0 for Mac” in the bug title and description. This information will ensure that your bug is processed quickly.

## Technical Support and Learning Resources

Apple provides the following web resources to support your development:

- [Apple Developer Forums](#). Participate in discussions about developing for Apple platforms and using developer tools.
- For help with using Xcode, choose Help > Xcode Help.

# Legal Notices

The Classroom 1.0 for Mac pre-release software identified above is Apple Confidential Information and your use of such software is subject to your Registered Apple Developer Agreement, Mac Developer Program License Agreement, and the applicable license agreements accompanying such software. Distributing such software to anyone other than another Registered Apple Developer who is working for the same entity as you is considered a violation of your agreement with Apple and is damaging to both Apple and those who develop for the Apple platform. We sincerely appreciate your efforts to keep this Apple software Confidential.

You agree that you will not export or reexport any of the software or Confidential Information received from Apple (a) into (or to a national or resident of) any U.S. embargoed countries or (b) to anyone on the U.S. Treasury Department's list of Specially Designated Nationals or the U.S. Department of Commerce Denied Person's List or Entity List. You also agree that you will not use said software for any purposes where prohibited by United States law, including, without limitation, the development, design, manufacture or production of nuclear, missile, chemical or biological weapons.

# Testing Focus Areas

- Test the features you use in Classroom for iPad
- Test Mac-specific conveniences like keyboard shortcuts to start actions

## Notes and Known Issues

### General

#### Known Issues

- Managed classes are not yet supported; only teacher-created classes are supported in this seed release
- Dark Mode not yet supported in this seed release
- Status glyphs for Lock and AirPlay do not appear next to the status string for a student
- Group selection indicator does not slide when selected group changes position
- Only a silhouette image appears in AirDrop for the All group or for manually created groups
- The Navigate action can not navigate a student device to a PDF
